

Hello,

You are receiving this letter because you are currently, or have been in the past, part of our Music To Grow By community. Usually in April, I am contacting you about our summer offerings. This year, I have different news. At the end of May, we will be closing our current studio location after ten years of tenancy. Operating expenses and rent have been steadily increasing, and our management company is unwilling to negotiate.

Music To Grow By is not going away, but we will not be offering Kindermusik classes, Playdates, or birthday parties as part of our program for now. Ms. Carolyn and I will certainly miss singing and playing with your little ones. We will continue to provide music instruction for preschools and daycare facilities, and private lessons will be conducted in my home near 91st & Sheridan. We may find another venue in the future in which to offer Kindermusik. We will certainly keep you informed if and when those arrangements are made.

Please keep us in mind for private piano and voice instruction, and recommend our program to your child's preschool or daycare director. Thank you for your patronage, and for sharing the joy of music with us. We have loved watching your families grow and learn.
